NOTICE OF MOTION.

By Ald. Taylor:—"Whereas it has been currently reported that Ald. Browne has been in the habit of going to the City Hospital for years back and appropriating to his use liquors supplied for the use of the patients, by so doing he often annoyed the staff and inmates by violently showing his authority as an Alderman to have full access to the stores and satisfy himself with liquor, and then lie down in one of the corridors to sleep it off; resolved, that this Council appoint a Special Committee to investigate the whole matter—going back to the year 1880—and report to the Council at as early a date as possible."

On motion the Council adjourned for two weeks.
